API_Databox

Extensive use of the API. 1,000 first calls free of charge. Monthly charging of 25.000 calls packages.,

Code: W10124.

Description

DataBox is an Industrial IoT platform for monitoring, control and analysis for facility management:

- Monitored variables
- Calculation of KPIs based on measured variables
- Alarm service. Generation, Warning, and Tracking
- Automatic Reporting
- Remote and local control and management of actions
- Visualization and control of parameters via widgets and dashboards
- Parameter comparisons over time or between installations
- SCADA synoptic screen which allows you to view a photograph or diagram and attach variables and links to widgets, dashboards, etc.
- Platform Customization/Branding (Name, DNS, and Background Image)

Specifications

DATABOX
DataBox Cloud software

CODE	TYPE
Plan	
W10100.	LitePlan_Databox
W10101.	SmallPlan_Databox
W10102.	MediumPlan_Databox
W10103.	BigPlan_Databox
User	
W10110.	BasicUser_Databox
W10111.	AdvancedUser_Databox
W10112.	AnalyticsUser_Databox
W10113.	ProfessionalUser_Databox
Service	
W10120.	Act-Firmware_Databox
W10121.	ImportVar_Databox
W10122.	ModbusIntegration_Databox
W10123.	Brand_databox
W10124.	API_Databox

All codes, with the exception of W10120. W10122. and W10124. correspond to monthly subscription prices. The prices for codes W10120. , W10122. are one-time purchase prices. The price of code W10124. corresponds to 25,000 calls. A reading is understood as a variable that is periodically recorded, an alarm as an expression that is continuously evaluated locally and reported, and an actuator as a pre-configured (manual or programmed) remote control action.
