

## CBC96 600V

CBC96 600V, Voltímetre per a mesura en continua, bobina mòbil, 2 relés

Code: M14846. DESCATALOGADO

- > Escala: 90° , P1
- > Precisió: 1,5
- > Rang mesura (V): 600
- > Mòduls: 96x96

### Especificacions

|                                       |                                                                                          |
|---------------------------------------|------------------------------------------------------------------------------------------|
| AC power supply                       |                                                                                          |
| Consumption                           | 2,5 VA                                                                                   |
| Frequency                             | 40...90 Hz                                                                               |
| Nominal voltage                       | 230 Vca                                                                                  |
| Mechanical characteristics            |                                                                                          |
| Size (mm) width x height x depth      | 96 x 96 x 85.3 (mm)                                                                      |
| Weight (kg)                           | 0,435                                                                                    |
| Environmental characteristics         |                                                                                          |
| Protection class                      | Panell: IP 52 (Frontal), IP 20 (Terminals)                                               |
| Storage temperature                   | -25...+70 °C                                                                             |
| Operating temperature                 | +5 ... + 55 °C                                                                           |
| Voltage measurement circuit           |                                                                                          |
| Consumption                           | 0,2 VA                                                                                   |
| Sampling frequency                    | 45...65 Hz                                                                               |
| Maximum permanent measurement voltage | 1,2 Vn                                                                                   |
| Electrical characteristics            |                                                                                          |
| Insulation voltage, circuit           | 2 kV a 50Hz < 1 min entre mecanismo y caja                                               |
| Standards                             |                                                                                          |
| Electrical safety, Maximum height (m) | 2000                                                                                     |
| Standards                             | IEC 51, IEC 1010, IEC 529, IEC 255, IEC 278, IEC 414, IEC 144, LLOYD'S (TEST. ESP. N° 1) |
| Measurement accuracy                  |                                                                                          |
| Accuracy                              | 1,5 % FE                                                                                 |
